

The Casting Director Guide From Now Casting, Inc.

This printable Casting Director Guide includes CD listings exported from the CD Connection in NowCasting.com's **Contacts NOW** area. The Guide is an easy way to get *familiar* with all the CD's. Or, you might want to print a copy that lives in your car.

Keep in mind that the printable CD Guide is created approximately once a month while the CD Connection is updated constantly. There will be info in the printable "Guide" that is out of date almost immediately... that's the nature of casting.

If you need a more *comprehensive, timely* and *searchable* research and marketing tool then you should consider using **Contacts NOW** in NowCasting.com. In **Contacts NOW**, you can search the CD database directly, make personal notes, create mailing lists, search Agents, make your own Custom Contacts and print labels. You can even export lists into Postcards NOW – a service that lets you create and mail postcards all from your desktop!

You will find **Contacts NOW** in your main NowCasting menu under Get it NOW or Guides and Labels.

General notes about Casting Directors

Yep, you'd better read this!

Casting directors are not as complicated as many actors think. Throughout these pages you will see notes about likes and dislikes. This page will give you some excellent guidelines about what the majority of casting directors had to say. It seems to be common sense, but a look through this list will help with ANY audition for ANY casting director, so keep it close. And don't just say "Oh yeah" because you wouldn't believe how much better things will go if you make an effort to follow these simple steps.

1. Be on time and be prepared. That is the number one comment.
2. If you are going to be late, make sure you call them with an estimated time.
3. Bring plenty of headshots and resumes. Make certain you staple them before you get there and take them inside with you.
4. Get the sides early and read them. Know the genre of the show that you are auditioning for and follow it.
5. Always arrive early and have a good attitude. The receptionist does talk to the CD.
6. Be nice to everyone at the office. If you have an ego, check it at the door.
7. Make a strong choice. A wrong choice is better than no choice at all.
8. Don't touch the casting director.

Something else to know about casting directors, they are people just like you and me. In general they are very nice people. They are usually actor-friendly and really want you to succeed. Don't think of them as adversaries, but as colleagues.

General Notes: Read her ACTORS INK interview

Background: This is Victoria's 20th year in casting. She trained on the job and still loves what she does.

Victoria was never an actor, she just loves the movies and enjoys working with talent.

Likes: Ask the CD whether it is crucial to be writer-conscious. Be open to our direction. Stay in character instead of stopping because you missed a line. Feel free to move around. Know your material & character so you won't have to read the pages throughout.

Dislikes: Don't wear white, video tape drains color from your face. Don't get physical with the CD. Don't assume you are not right for the role. Don't come in saying you had so many interviews you couldn't prepare for my project. We do not shake hands for health reasons. Follow our lead on social conversations. Don't bring actor friends and try to get them an audition while they're there.

General Notes: Unfortunately, in television it is more about the result. They really want to see the performance

at the audition and at the first rehearsal. Read his ACTORS INK interview

Background: 1999 - Artios Award Nomination - Frazier. Won 4 Artios Awards for Frasier, nominated for 3 Emmys for Frasier.

Likes: Every actor's asset is that there is no one quite like them. So rather than make themselves like everyone else, actors need to trust their own special uniqueness.

Dislikes: The actor must learn to take the cue from the room you walk in to. If they want to chat with you, they will chat. If they say OK begin at the top, you do that. At the end you have to take your cue too. If they say thank you, that is your cue to leave. Do NOT CALL OFFICE!

Likes: Leave your personal life outside the door. Be in synch with the CD. Be in the moment, don't anticipate. During an audition, if you realize it isn't going the way you planned, don't panic. Just go with it. You can always ask to do it again.

Dislikes: No Props. Check sides when you come in to audition, if they were previously faxed to you.

Background: Grew up in Hollywood. Father production manager on Gunsmoke, Mother an actress. Over 20 years experience.

Likes: Come early and read the script. Be professional at all times. Actor should look exactly like their picture. They should not glamorize it. Look in the mirror and say I'm a good actor, and take a picture of yourself. It is that simple.

Dislikes: Don't ask background and relationship questions during call back situation. Do not expect the CD to return calls to actors. We are too busy to return calls except to agents, producers & directors.

General Notes: Read her ACTORS INK interview

Likes: People that are ready. They've studied the material, they're familiar with the show, you can tell that they know the style of the show. Very often, especially with the nature of 24, some of the roles are very intense, and

you can tell that an actor's ready to work when you bring them into the room. No chitchat. These are the producers, you're ready to work, go do it.

Dislikes: When actors come in and start making excuses like they didn't get this or they don't know what the story's about. You just want to say to them, "Shut up and stop shooting yourself in the foot." Just do it. Or they ask twenty different questions. Or after doing it for the first time and been given an adjustment then do it exactly the same way. It's about listening and understanding the nature of the adjustment. Literally, one actor did lose out on a role because they were good the first time and the director just wanted to give them a direction to see what he could do and stretch a little bit. He gave him an adjustment and he did it exactly the same way.

Likes: Substance in your craft is ultimately much more important than how smooth you are in the room. Do less, bring it down, be still. Focus, honesty and realness. I am more touched by the actor that comes in the room, does the work and leaves quickly.

Other CD(s) in Office: Tracy Mueller

Current Projects: Commercials (on-going) - Commercial

General Notes: All we want is for everyone's audition to be great! Help us to do our best for you. Read her ACTORS INK interview

Background: Francene was a SAG actress for years and then worked in production before becoming a Casting Director. This background aids her with the all around understanding of the process. She has great empathy for actors, having been one for so many years.

Likes: Do always try to come on time! If you cannot, call your Agent ASAP. We have to send our client a good tape, and if you cannot come, we'll find another actor who can. Read any posted info about the job; we put it there to help you in your audition.

Dislikes: Actors who come in out of category, and then demand that we stop everything to accomodate them. If you can just take a moment to assess the situation before you create a scene, you can avoid a great deal of conflict.

Current Projects: ANSWERS TO NOTHING - Feature Film; Cold Case, CBS - 1 Hour; Make It or Break It, ABC Family - 1 Hour

Likes: Be prepared and be yourself. If you come in after only reading the sides and don't ask questions about the whole piece, that will tell me that you are not serious about the role. I respect actors who present themselves in a business like manner.

Dislikes: Don't say, tell me what you want and I'll do it. Don't try and determine what is going on in the director's head. Give all you've got and then let it go.

Background: Actor & Director.

Likes: Likes actors with a lot of credits, also likes theatre and training. When an actor has training he is assured that there will be a common language between the CD and the Actor. Training assures him that the actor will be able to develop a character, understand the beats of a scene, and know how to make a beginning, middle & end.

Dislikes: Tardiness. Do not ask too many questions. Doesn't want to tell you what they are looking for, wants actors to use their instincts. Always ask about pronunciation. Do not send unsolicited demo reels.

Likes: Relaxation, Focus & Flexibility. It is important to start with a bang, don't climb the ceiling but be there from the beginning.

Dislikes: Don't memorize the lines for audition, but know the material. Don't expect the CD to return the actor's call.
